

I am a student working towards a Bachelors in Graphic Design and a minor in Psychology. I bring a unique perspective to my work, as I not only understand aesthetics but also the underlying motivations and emotions of a client. I have skills in both digital and traditional design mediums. Additionally, I have experience in Film Photography which has added an organic and tactile dimension to my creative toolkit. With my diverse skill set and interdisciplinary background I am well equipped to contribute to any creative team.
